

Alfacon Solutions' Custom Work Platforms are built specifically for our customers applications. The customer's involvement at the design stage ensures the lift platform has all the features and performance requested for the specific job.

STANDARD FEATURES AND CERTIFICATIONS

- Built and designed in accordance to ANSI MH29.1
- ITS certification
- UL, CSA, Hydro approved power packs & controls
- Remote 1 hp, 115 volt, single phase power pack (requires dedicated 20amp circuit)
- TENV motor
- Nema 4 motor
- Rated push button controls
- Power pack includes pressure relief valve, check and flow control valve
- Ground and hard chrome solid rod hydraulic cylinders rated at 3,000 psi working pressure
- Velocity fuse fall safe protection
- Abrasion, oil and weather resistant hydraulic hose with 4 to 1 safety factor at 3,000 psi
- Solid steel scissor legs (44,000 psi minimum yield)
- Smooth steel platform
- Structural steel base frame
- Ground superior shafting pivot pins
- Lifetime lubricated Teflon coated bushings
- Sealed cam follower rollers
- Safety warning striping on platform sides.
- **Custom designed & built to customer specifications**

OPTIONS

- Multiple lift heights
- Non skid platforms
- Custom tool benches / tool storage / tool power sources
- Powered and manual extending platforms
- Tapered or Electric toe guards
- Rotating platforms (manual or powered)
- Portability (casters, wheels, air bearings)
- 3 hp, 220-575 volt, 3 phase
- 12 - 24 volt DC
- 1 - 4 hp air motors
- Wash down
- Explosion proof
- Manual lowering valves
- Warning horns & lights
- Accordion curtain enclosures
- Custom finishes (paint or galvanize)
- Stainless steel platforms
