

The Alfacon Extendable Gravity Conveyor is a simple and affordable solution designed to increase your loading/unloading operation.

STANDARD FEATURES

- When not in use, a 5 section Alfacon Extendable stows away occupying less than 15' x 3' of floor space
- Extended to it's full reach, it transforms into a 50' declining roller conveyor into your trailer ready for use
- Available in 2, 3, 4, 5 and 6 section models, the Extendable is suited for small courier dock level vans all the way to full size 53' linehaul trailers
- Power Caddy for easy maneuvering (option available when purchasing)

BENEFITS

The Alfacon Extendable Conveyor maximizes the efficiency of your shipping door operations. Safe, easy to operate and compact, it minimizes operator and forklift travel at shipping doors. Adjustable to suit operator preferred heights, the Extendable is an asset to any distribution warehouse, cross-dock operation, courier terminal, or shipping facility.
