

The Alfacon Rigid Truck Loader was designed with ergonomics and productivity in mind to save your operation time and money.

A safe and convenient conveyor used for loading and unloading trailers, the Alfacon Rigid Truck Loader has quickly become one of our most popular products.

STANDARD FEATURES

- Available in both belt and roller conveyor styles, a wide range of products can be loaded or unloaded. Standard widths up to 48" and lengths of up to 75' are available for use in full size tractor trailers.
- Operator driven by one simple joystick controller, the Rigid Truckloader drives in and out of trailers with ease, saving operators the tasks of lifting and carrying product.

STANDARD FEATURES

BENEFITS

With minimal operator training, your case loading and unloading rates increase immediately. Forklift travel at dock doors becomes minimized, and your dock operation becomes safer for all of your personnel. A pivoting section of roller conveyor is equipped with a photosensor at the operator end, ensuring no products overflow onto the operator unloading. When in operation, a red beacon light on the control panel flashes to warn all employees of moving machinery.

BELT SPECIFICATIONS

- **Carrying Surface:** Black PVC 120 COS with metal lacing
- **Belt Width:** 24" and 30"
- **Conveyor Speeds:** 70 fpm standard: variable speed optional
- **Length:** 20' to 70'
- **Operator Controls:** 8-way joystick with for./rev. buttons
- **Paint:** Standard Grey; custom colours available upon request

- **Carrying Roller:** 1.9" diameter 16-gauge steel rollers with 7/16" spring loaded axles
- **Between Frame Dimension:** 16", 20", 30", 36"
- **Conveyor Speeds:** 60 fpm standard: variable speed opt.
- **Roller Centres:** 3" roller centres
- **Drive Capacity:** 15 to 22.5 lbs. Per roller
- **Length:** 20' to 70'
- **Drive Steering Controls:** 8-way joystick or 4-way joystick with for./rev. buttons
- **Paint:** Standard Grey; custom colours upon request

**SAFETY**

As with all of our equipment designs, operator safety is our primary concern. The Alfacon Rigid Truck Loader comes equipped with a "safety bar" at the operator station of prevent danger during operations. Emergency stop buttons at both ends ensure a prompt shut down when necessary and all pinch points and moving components are guarded for operator safety.
